

THE AGING SPECTRUM IN ORTHOPAEDICS

OREGON ASSOCIATION OF ORTHOPAEDIC SURGEONS

OAOS 2025 ANNUAL ORTHOPAEDIC CONFERENCE

Join us for an exciting two-day, in-person educational experience led by some of the most respected orthopaedic surgeons in the field. This year's theme, "The Aging Spectrum in Orthopaedics," will take a comprehensive look at how age impacts orthopaedic care across a wide range of practice areas. Sessions will explore treatment strategies tailored to various life stages — from pediatrics to geriatrics — with special attention to age-specific considerations, surgical techniques and recovery protocols. The program will also highlight approaches to patient optimization for better outcomes at every age, and address the evolving needs of the ageless athlete — individuals who continue to pursue active lifestyles well into later years. Together, these topics will provide attendees with dynamic, practical insights to enhance patient care in a changing demographic landscape.

September 26-27, 2025

Hyatt Regency Portland at the Oregon Convention Center
375 NE Holladay Street | Portland, OR 97232

OREGON
ASSOCIATION OF
ORTHOPAEDIC SURGEONS

FEATURING

Annunziato (Ned) Amendola, MD

Foot, Ankle & Sports Medicine Orthopaedic Surgeon,
Duke Health, Durham, North Carolina
AAOS 2025 President

Dr. Amendola's clinical and research interests center on advancing the understanding, prevention, treatment, and rehabilitation of sports- and activity-related conditions of the knee and ankle. He has played a key role in the original development of arthroscopic and biologic resurfacing techniques for the ankle and knee following joint injuries. His work has contributed to the introduction and evolution of numerous innovative technologies, surgical techniques, and medical devices in orthopaedics.
